

LESSON PLAN GUIDE

The following is an enlarged sample of the Lesson Plan. The plan asks the teacher to use standards and indicators when planning grade level academic content for each subject lesson. The entire lesson plan, modeled on the traditional lesson plan book, is posted at this site.

A traditional lesson plan book can be used by the school or the school may use some other form that is appropriate for the individual school. However, ***Standard, Indicator, Procedure, Student Product, and Home Practice*** are to be used no matter what form the school utilizes.

The ***Standard*** is always indicated by the ***Roman numeral only***.
The ***Indicator*** always uses the ***Number plus the direct quote or the indicator can be paraphrased***.

Language Arts Grade 3

Standard **VII**
Indicator #4 Write informational report; include main idea and details from the text.
Procedure Using Chapter 2 from the social studies book

Student Product

Home Practice
