ICCS Students Compete in World Language Fair

Immaculate Conception Cathedral School upper school students competed with other Memphis-area high school students in the World Language Fair at the University of Memphis on April 1. In the French 2 category, ICCS senior Michal Kennell won first prize in French writing, and junior Samantha Oswald won third place in French research.

Diocesan Men Celebrate MMOS 2019

Men came from all across the Diocese of Memphis on March 23rd to celebrate Men's Morning of Spirituality this year. Men's Morning of Spirituality, MMOS, is an annual event for men seeking to enrich their Catholic faith, with keynote speakers and local witness speakers sharing stories, traditions and dogma, related to theme topics. Holy Mass, Sacrament of Reconciliation, and Eucharistic Adoration are also a part of the days agenda, along with a continental breakfast. Each year the event is held at Catholic Church of the Incarnation from 8am – 1pm.

St. Agnes Academy Construction Team Wins Top Engineering Honors

The St. Agnes Academy Construction team won the Structural Ingenuity Award for the second year in a row at the University of Memphis' annual engineering Construction competition. The Structural Ingenuity Award, which is based on innovative structural design as shown through complexity and stability, is the Civil Engineering award for the competition.

The St. Agnes team's theme for their build was Up, Up and Away with Hunger. The team built a hot air balloon to show how, as a society, we can lift people out of the depths of poverty and hunger. The team collected 1,034 cans of food, which is equivalent to over 900 pounds of food, which will be donated to the Mid-South Food Bank.

"The girls planned the design and then made alterations from the paper design to the actual build," said David Tran, Upper School Faculty Advisor for the team. "Through trial and error, the girls determined the best way to support and balance all the cans in the structure accounting for the slight variations in the cans. They learned how to build a structure within a budget. They also learned how to balance forces to maintain structural integrity, while at the same time planning for environmental factors that could compromise the structure," said Mr. Tran.

The goal of the Memphis Construction Jr. competition is to increase high school students understanding of civil engineering and the role of the civil engineer in society, as well as to raise awareness about hunger in the Mid-South.

The St. Agnes Academy Construction team won first place in the category of Structural Ingenuity at the 2019 Construction competition held at the University of Memphis. Many groups give awards to various organizations and individuals throughout the year, but none appear to be specifically offered to those who show consistent acts of service. Therefore, Faith West TN has initiated a “Person of the Year” award whereby anyone from the Diocese who has selflessly donated their time and talent to our Church and community will be recognized, with one person being named as Faith West TN Person of the Year. The winner will be featured on the cover of the December issue of Faith West TN.

The Person of the Year will be an individual of integrity who lives out their faith by sharing his/her time and talent for the good of others. Nominations for this award will be provided by individuals, parishes, and other Catholic organizations, providing the opportunity to recognize those who exemplify a quiet, humble dedication to the service of others.

Even though only one will be named “Person of the Year” all nominees will be recognized, with the winner featured on the December cover.

We are grateful for this opportunity to help recognize those in our Diocese for their time and dedication. Our hope is this event will encourage all people in our Diocese to live a life of service to the Church and community.
