

EMERGENCY OPERATIONS PLAN

TORNADO EVACUATION

Anytime sirens are activated, move to a safe location that is a designated safe location inside the building

- **Leave your immediate area just like a fire drill.**
- **Stay together as a group.**
- **Once in a safe location, a lead should take roll or head count.**
- **Everyone should assume a crouching position, facing the wall, & protect head with arms.**
- **Stay away from windows and doorways.**
- **If caught outside and you can't make it inside – crouch on the ground, away from buildings, trees and wires.**
